INVITATION

Dear Participants!

The People Event takes immense pleasure & feel honored in inviting the contributors across the globe to “3rd World Conference on Climate Change & Sustainability” to be held during October 21-23, 2024 at Barcelona, Spain.

The Climate Week 2024 is an annual event where scientists, business experts, goverments professionals and stakeholders from various sectors discuss the diverse facets of climate change and its relationship to sustainability and global warming. In this sense, the Climate Week 2024 strives to go beyond science and build bridges between the state-of-the-art in multiple disciplines and different groups of stakeholders and practitioners. Climate Week 2024 aims to provide a platform for discussions on climate and sustainability societies, by creating a stimulating environment that produces innovative ideas and clear pathways towards their implementation.

We invite senior leaders of academic organizations, business, government, and civil society to gather in-person and join us in our mission to accelerate climate action, fast. Across the three days you’re invited to join a variety of networking and interactive sessions; from open discussions and debates to closed door roundtables, collaborative workshops and networking receptions. To mark this year’s Climate Week, we’re asking individuals, businesses and communities up and down the country to put climate change at the top of the conversation list. Climate Week 2024 is an opportunity to exchange ideas, share successes, and create collaborations that are going to drive more climate action. Connection with peers at other environmental and conservation organizations, business, policy, and philanthropy sectors can spur innovation and most importantly action. It brings together influential global leaders from business, government, and climate communities to discuss opportunities and challenges in climate action.

We hope this conference will play an important role in providing a platform in 2024 to exchange views and ideas on the theme that climate change & sustainability should be for all.

We wish to see you at Barcelona, Spain

Scientific Committee
Climate Week 2024

SESSIONS

- Climate Science & Climatology
- Global Warming Effects & Causes
- CO2 Capture and Sequestration
- Sustainability & Climate Change
- Climate Change Law & Policy

Key Factors of Barcelona

Barcelona is a city whose personality bursts at every natural seam. The capital of Catalonia, one of Spain's 17 autonomous communities, Barcelona is also known as the country's most progressive city, always on the cutting-edge of European art, fashion and cuisine. What's more, its energy is unparalleled, with hundreds of bars, restaurants, cafes and clubs... so be prepared to party 'til dawn and hit the streets with the rest of the city's nearly 2 million inhabitants. But Barcelona is also the city of Picasso and Miro. It's also a home for gorgeous beaches, serene parks and gardens, uniquely preserved medieval historic quarter Barri Gotic, fine museums and elegant restaurants with gastronomical delights.

Barcelona is already one of the main hubs in the south of Europe for science and technology. Barcelona Supercomputing Center (BSC-CNS), center for scientific innovation. Barcelona is now home to Microsoft's artificial intelligence and deep learning research and development hub. Barcelona's long history is closely linked to scientific knowledge, technological breakthroughs, innovations and inventions, and the city is currently the most important centre for technological research and development in southern Europe. Barcelona is said to be older than Rome. Barcelona is the only city in the world awarded a royal gold medal for architecture. The architecture is part of what's made Barcelona one of the design capitals of the world and a mecca for architects. This building made from steel and glass surprises many visitors in Barcelona with its controversial structure Barcelona enjoys a Mediterranean climate, with mild winters and warm summers. Barcelona is a beach city, blessed with a large coastline that goes on for almost 4.5 km No matter what time of year you come, there will always be a festival or street party to join in Barcelona There are nearly 3 million cruisers passing through the 7-terminal cruise port of Barcelona each year, making it the 6th busiest in the world and no.1 in Europe.

Barcelona is the gateway to southern Europe, the capital of the Mediterranean area, a bridge to the Maghreb and a platform to Latin America. Barcelona heads a big economic area with a long industrial tradition and a dense business fabric. The city is geared towards the economy and knowledge-intensive activities, especially advanced services and new economic activities. The region of Catalonia is home to over 5,000 foreign companies, and 90% of them are based in the Barcelona area. Furthermore, more than 50% of all the Japanese, Italian, North American, French, Austrian and Swiss companies that operate in Spain are based in this area. Barcelona is a known entrepreneurial and business-friendly city. Thanks to its long business and commercial tradition, Barcelona is today one of the most important cities in Europe for doing business.

KEY TAKEAWAY

- Hear from world-class researchers, academics, and from industries about the top areas of active research
- Take time out of your busy schedule to accelerate your knowledge of the latest advances in data science
- Be the first amongst your peers to grasp changes that will affect the field in the next few years
- Take advantage of and chose from another 80+ talks, tutorials, and workshops at ODSC West
- Learn directly from top researchers what works and what doesn't
- Connect and network with academics, research, and fellow professionals
- Meet with peers and professionals looking to learn, connect, and collaborate
- Get access to other focus area content including Sustainability & Climate Change, Climate Change Law & Policy, Oceans & Climate Change

REGISTRATION PRICES

SPEAKER REGISTRATION	$599
DELEGATE REGISTRATION	$599
STUDENT REGISTRATION	$399

REGISTRATION DEADLINES

Mid Term Registration: **Before March 10, 2024**

Late Registration: **Before June 24, 2024**

Final Registration: **Before August 03, 2024**

ABSTRACT SUBMISSION DEADLINES

First Round of Abstract Submission:
December 04th, 2023 to January 28th, 2024

Second Round of Abstract Submission:
April 10th, 2024 to June 24th, 2024

Final Round of Abstract Submission:
July 14th to September 06th, 2024
