CLIMATE CHANGE WEEK

20–21 OCTOBER 2027

# 6th Annual Climate Week Europe

Driving Net Zero with Technology, Innovation & Action

ROME, ITALY

# Climate Week 2027

## Shaping Europe's Net-Zero Future Where Climate Innovation Meets Real-World Impact

Building on the legacy of previous editions hosted in Frankfurt(2022), Rome(2023), Barcelona (2024), Milan (2025), and London (2026), the 6th Annual Climate Week Europe will be held in Rome, Italy, on October 20–21, 2027, bringing together global leaders to accelerate climate action and advance the transition towards a net-zero future.

Under the theme "Driving Net Zero with Technology, Innovation & Action," the conference will explore how emerging technologies, forward-thinking policies, sustainable business practices, and cross-sector partnerships can turn climate ambitions into measurable progress. The event will provide a platform for examining practical pathways to decarbonisation, clean energy adoption, climate finance, sustainable supply chains, circular economy solutions, and climate resilience.

### Elevate Your Brand

Position yourself among senior Climate industry decision-makers.

### Showcase Innovation

Exhibit products, ingredients, technologies, and services to a global audience.

### Demonstrate Leadership

Share thought leadership through keynotes, panels, and sponsorships.

### Generate Opportunities

Create valuable business connections through strategic networking.

# Who Attends Climate Week 2027?

Climate Week 2027 brings together a diverse global audience of policymakers, business leaders, climate and sustainability professionals, researchers, investors, entrepreneurs, technology innovators, and industry experts. The event welcomes corporate executives, startups, solution providers, and sustainability advocates to exchange knowledge, showcase innovations, build strategic partnerships, and explore practical solutions to accelerate climate action and the transition towards a net-zero future.

# Event Theme & Conference Overview 2027

Climate Week 2027 aims to inspire actionable climate solutions, strengthen international partnerships, and encourage the adoption of innovative technologies and sustainable practices. Participants will gain valuable insights, exchange expertise, explore investment and collaboration opportunities, and develop connections that support long-term progress towards a resilient, low-carbon, net-zero future.

## Climate Technology & Smart Innovation

Explore advancements in artificial intelligence, digital technologies, smart infrastructure, carbon capture, climate modelling, and innovative solutions accelerating the transition to a low-carbon economy.

## Clean Energy & Net-Zero Transition

Discover developments in renewable energy, solar and wind power, energy storage, green hydrogen, electric mobility, energy efficiency, and emerging technologies driving global decarbonisation.

## Sustainability, Circular Economy & Climate Resilience

Learn how organisations are advancing sustainable business practices through circular economy models, responsible resource management, regenerative solutions, carbon reduction strategies, climate adaptation, and resilient infrastructure.

## Climate Finance, Carbon Markets & Green Investment

Explore sustainable finance, green bonds, carbon pricing, climate investment, ESG strategies, transition finance, and innovative funding mechanisms supporting the global shift towards a net-zero economy.

## Climate Policy, Governance & International Cooperation

Examine climate policies, international agreements, regulatory frameworks, corporate accountability, national climate strategies, and cross-border partnerships driving effective climate action and sustainable development.

# Key Topics Highlight

Climate Week 2027 will explore key topics shaping the global climate agenda, including climate technology, clean energy, net-zero strategies, climate finance, carbon markets, sustainable infrastructure, circular economy, climate policy, and resilience. Discussions will focus on innovative solutions, practical strategies, and international collaboration to accelerate decarbonisation and build a sustainable, climate-resilient future.

We welcome practical insights, real-world case studies, emerging technologies and forward looking perspectives.

01 From Climate Commitments to Real Action

02 Climate Change & Global Warming

03 AI and Climate Technology

04 Climate Adaptation & Resilience

05 Carbon Markets & Decarbonisation

06 Sustainable Cities and Green Infrastructure

07 Restoring Nature to Protect the Planet

08 Transforming AgriFood Systems

09 Carbon Capture and Removal

10 Financing the Climate Transition

11 Circular Economy and Climate Innovation

12 The Road to Net Zero and Beyond

13 Climate Science & Climatology

14 The Ocean and Climate Change

# Speaking Opportunities

## Share Your Expertise. Inspire Climate Action. Shape a Net-Zero Future.

Climate Week Europe 2027 invite s visionary leaders, innovators, researchers, entrepreneurs, policymakers, and industry experts to share their knowledge and insights with a global audience driving climate action and sustainability. Whether you are advancing clean energy technologies, developing innovative climate solutions, influencing environmental policies, accelerating decarbonisation, or building sustainable business models, Climate Week Europe provides an ideal platform to showcase your expertise, exchange ideas, and inspire meaningful change.

### Oral or Keynote Presentation

Deliver an inspiring keynote highlighting your organisation's vision, research, innovations, and achievements while engaging with international leaders and decision-makers.

### Panel Discussion

Join leading experts to discuss emerging climate trends, policy developments, technological advancements, climate challenges, and pathways towards a net-zero future.

### Innovation Showcase

Present breakthrough climate technologies, renewable energy solutions, carbon management systems, sustainable products, clean technologies, and innovative business models to an international audience.

### Position Yourself as a Thought Leader

Share your expertise alongside internationally recognised professionals, policymakers, researchers, and industry leaders shaping the globalclimateandsustainability agenda.

### Build Global Visibility

Showcase your organisation, projects, services, and innovations to a targeted audience of business executives, investors, policymakers, researchers, and sustainability professionals.

### Expand Your Professional Network

Connect with global decision-makers, potential collaborators, investors, technology providers, industry experts, and strategic partners across the climate ecosystem.

### Accelerate Business Opportunities

Generate valuable connections, explore strategic partnerships, strengthen your organisation's credibility, and create new opportunities in the growing climate and sustainability sector.

# Climate Week 2027 Awards

Celebrating climate leadership, innovation, resilience, and measurable action across the global climate ecosystem.

- **Climate Leader of the Year**
- **Climate Action Champion Award**
- **Sustainability Leader of the Year**
- **Climate Innovation Pioneer Award**
- **Net Zero Leadership Award**
- **Clean Energy Leader of the Year**
- **Renewable Energy Pioneer Award**
- **Climate Technology Leader Award**
- **Carbon Reduction Champion**
- **Climate Adaptation & Resilience Leader**
- **Corporate Sustainability Professional of the Year**
- **Climate Finance Leader Award**
- **Nature-Based Solutions Champion**
- **Biodiversity & Climate Action Leader**
- **Environmental Sustainability Leader**
- **Climate Research Excellence Award**
- **Climate Policy & Advocacy Leader**
- **Community Climate Leadership Award**
- **Climate Education & Awareness Leader**
- **Sustainable Business Leader of the Year**
- **Green Technology Pioneer Award**
- **Climate-Smart Agriculture Leader**
- **Sustainable Infrastructure Leader**
- **Climate Risk Management Leader**
- **Circular Economy & Climate Champion**
- **Women in Climate Leadership Award**
- **Young Climate Leader Award**
- **Climate Industry Mentor Award**
- **Climate Change Mitigation Leader**
- **Climate Resilience Champion**
- **Climate Impact Excellence Award**
